Elementary Template Tasks (BETA)

May 2014

Literacy Design Collaborative (LDC) [template tasks](#) aim to help teachers craft Common Core-aligned tasks that engage students in writing in response to reading. When filled in, a template task becomes a teaching task that sets up a context for teaching the specific skills and demands embedded in the Common Core standards. The teaching task serves as the foundation of a literacy-saturated instructional module.

The [original collection](#) of LDC template tasks was designed for use in grades 6-12. Numerous teachers, literacy coaches, and administrators soon after took the initiative to use the LDC framework at the elementary level, and created and successfully used their own template tasks for grades K-5 based on the original collection. The LDC community of practice has since identified the need for a consistent, comprehensive, and vetted collection of LDC template tasks to make available to all elementary teachers.

This “beta” collection of elementary template tasks has been collectively designed and revised by a working group of elementary LDC teachers, coaches, and other practitioners, and it includes 22 template tasks, respectively, for grades K-1, 2-3, and 4-5. LDC is making the entire collection available with the goal of having elementary LDC users “beta test” these template tasks in the pursuit of gathering feedback and suggestions for revision over the next several months before this collection is finalized and published.

Please provide any feedback you have about these template tasks to LDC by either by sending an e-mail to questions@ldc.org or by using this form: <http://ldc.org/about-us/contact2>. LDC will examine your feedback and consider your suggestions when these template tasks are revised a final time before being published.

A few notes about this template task collection:

- A set of “sample” teaching tasks using these templates will soon be released as an addendum to this document.
- These template tasks “build in” the same Common Core *Reading* and *Writing* standards – for the appropriate grade levels – as the 6-12 collection. Additionally, elementary template tasks “build in” Common Core *Language* standards 1-4. See here for more about that as well as more about LDC template tasks generally: <http://ldc.org/sites/default/files/LDC-Template-Task-Collection-2.0.A.pdf>
- Separate argumentation, informational/explanatory, and narrative rubrics for these template tasks are currently being revised and finalized for “beta testing” as well. They will soon be released as an addendum to this document. In the meantime, elementary teachers may use draft elementary rubrics that can be found here: <http://ldc.org/how-ldc-works/modules/what-task/rubric>
- All template tasks and additional “demands” in this collection are available for use in LDC CoreTools where the appropriate grade-level Common Core standards are automatically built in and the existing draft rubrics are provided. Please go here to build modules in LDC CoreTools using these template tasks: <https://coretools.ldc.org/>
